

RECOMMENDED TRAFFIC:  
**<100 uses a day**

GUARANTEE PERIOD:  
**3 years**

- Low energy
- Fast drying

# High speed, compact and vandal resistant

User drying perception -  
Exceeds all expectations

High speed with a low noise output

Robust with quality manufacture;  
suitable for tough environments

Advanced hygienic technology at a  
budget price

The heater element is only activated  
when required - maximising cost savings

Small wall footprint means it will fit  
anywhere

Specification	
Dry Time Range	15 – 20 Seconds
Rated Power	0.5 – 1.15 kW
Cost per 1000 dries	30p – 69p
Finishes and Codes	White (TFJ01) Polished Chrome (TFJ02) Brushed Satin (TFJ03)
IP rating	IPX1
Dimensions	Height 260mm Width 180mm Depth 157mm

RECOMMENDED TRAFFIC:  
**<100 uses a day**

GUARANTEE PERIOD:  
**3 years**

**Benefits**

**Compact yet packs a real punch**

The powerful airflow of this relatively low noise hand dryer does not disappoint any user. Not only will you be able to locate this hand dryer in virtually any tight spot in the washroom, users will walk away with fully dried hands.

**Budget priced yet quality made**

Don't be fooled by the price tag on this one. This comes with the build quality you would expect from a more expensive hand dryer. Solid stainless-steel cover, which is secured by 2 anti-vandal screws. Elegantly designed to complement any washroom decoration.

**Innovative hygienic technology at affordable prices**

A UV light is purposefully positioned to regularly clean the inside of the unit from bacteria and mould. The air intake grills are protected by standard particle catching filters, so the air blown over the hands is purified.

**Intelligent heating system**

This unit thinks for itself, automatically keeping the temperature of the airflow comfortable, with no need for someone to remember to do it. If the rooms cold it will add heat. If it's a warm day it doesn't. This makes sure you do not waste any energy unnecessary. A smart way to keep money in your pocket, minimise impact on the environment and keep users happy.

**Low running costs and environmentally friendly**

The energy used by the Turboforce Junior PLUS is minimal, making sure your running costs are very small. Your bills will be significantly reduced when compared to a conventional hand dryer or the constant replenishment of paper towels. The environment will also benefit.

**Annual cost and carbon production (Kg/CO<sup>2</sup>) for an office of 20 people\***

\*FIGURES BASED ON: 20 people in an office location visiting the bathroom 4.5 times a day, 260 times a year / Conventional hand dryer rated at 2.5kW with 40 second dry time / Hand dryer at most energy efficient setting if applicable / Hand dryer cost at 12p per kW/h / 3 paper towels taken per bathroom visit at 0.5p a paper towel / Hand dryer carbon production using Carbon Trust standard of 1kW/h = 0.54 Kg/CO<sup>2</sup> / Paper towel carbon production using 22.5gms/CO<sup>2</sup> per dry (3 paper towels) / The above is an example for illustrative purposes only, actual figures of your location may vary
