

The stylish, zero maintenance, top of the range 2kW Herschel CALIFORNIA, with its cutting-edge design incorporating a high quality anodised finish, takes outdoor heating to another level. Available in a choice of 3 colours: black, silver and special edition gold, the CALIFORNIA, part of Herschel's SUNSET range, combines contemporary design with an ultra-long life carbon heating lamp which quickly produces an effective feeling of comfortable warmth, perfect for both domestic settings and commercial areas such as bar, restaurant and café terraces. The CALIFORNIA can also provide a modern, effective and efficient solution for hard to heat, draughty indoor areas such as public halls, reception areas and larger indoor venues where aesthetics are a priority.

Silent in operation, the CALIFORNIA comes with a remote control and can operate at two different power levels, it can also be timer controlled for up to 24 hours. Ideal for those looking for an easy to control solution, the CALIFORNIA provides an instant and powerful heat with a warm and comforting glow, but without the glare and invasive light produced by most quartz halogen heaters available. Mirror aluminium reflectors offer 98% reflection preventing rearward heat loss. Rated at IP65 the Herschel CALIFORNIA is recommended for both covered and uncovered outdoor areas within locations relatively sheltered from airflow, as well as hard to heat, draughty indoor areas. The California is a wall mounted solution or alternatively, it can be fixed to a portable stand enabling it to become a free-standing heater, offering further flexibility as to its positioning (California incorporates anti-tilt device, mounting guidelines must still be adhered to).

Leading the way in stylish outdoor living, the Herschel CALIFORNIA is an efficient and environmentally friendly way to ensure quick, clean and effective warmth. For larger detailed commercial projects we would always recommend Herschel carry out a survey or detailed desktop assessment.

Available Models

Part Number	Rated Power	Dimensions	Weight	Heated Zone m ²
M-CALIFORNIA-2000R-B	2000W	78.00 x 13.00 cm	3 kg	5 - 9 Outdoors 8 - 14 Indoors
M-CALIFORNIA-2000R-G	2000W	78.00 x 13.00 cm	3 kg	5 - 9 Outdoors 8 - 14 Indoors
M-CALIFORNIA-2000R-S	2000W	78.00 x 13.00 cm	3 kg	5 - 9 Outdoors 8 - 14 Indoors

Technical Details

Heating Element	Ultra long life Carbon heating lamp (up to 10,000 hours)
Voltage	220 - 240V 50 Hz
Body	Extruded anodised aluminium
Remote Control	2 power levels (100% & 50%) & 24 hour timer (24 x 1 hour increments)
Warm Up Time	5 - 10 Seconds
Useful Wavelength Range	2 - 5µm
IP Rating	IP65
Cable	2m
Certificates	UK CA CE E
Warranty	2 years

IMPORTANT

Always refer to the Herschel CALIFORNIA Installation Manual before installation and for guidance on heated zones and heat intensity at alternative mounting heights. The heated zones are based on the recommended mounting heights. In exposed areas with air movement/wind the infrared spread may reduce by 1/3 to 1/2. In these areas we recommend mounting at the lowest height and proportionally increasing the number of heaters. Under no circumstances is the heater to be installed at less than 1.8m (71") from the floor. Do not touch the heater when it is in use.

Ensure supply voltage does not exceed 240 Volts. The Herschel California is guaranteed against failure due to faulty materials or workmanship for two years. The warranty excludes lamp and remote control. In the unlikely event of failure of the unit within this time, the unit must be returned to the supplier for repair or replacement. Refer to the warranty policy on Herschel-infrared.co.uk for more detail including exclusions. The guarantee is invalid if the correct installation instructions have not been adhered to.
